To Whom It May Concern,

This is a letter of recommendation for Mr. Bud Ryerson. For over 20 years, Mr. Ryerson has lent his video service to Ford Aerospace, and later, when it changed hands, to Space Systems/Loral. With each project Mr. Ryerson has time and again poured every ounce of concentration and effort into producing the absolute best program possible. The extra effort he exhibited to look for material beyond what was provided to him was amazing, and his ability to meet any deadline was phenomenal.

I have no qualms about giving Bud my highest endorsement, and if you have any questions to ask me personally, please feel free to call or page me at any time. Thank you for you time.

Mark A. Tovar  
Senior Video Production Editor
